

Mira Sprint Circuit – 1.704 Kms

140/364952. Off A5 3 miles North of Nuneaton

From the start most will be able to accelerate through the gears without lifting through the long left-hand bend, try to miss the manhole cover strategically placed around a third of the way round, especially in the wet.

Through the speed trap leave your braking as late as possible & hard on the brakes for the right hand bend, this is quickly followed by the tighter left hand bend opening onto the straight.

Start looking for the cones indicating the fast left hander towards the end of the straight, try not to go in too fast as you will be forced to compromise exit speed.
