

MSCC Techniques Speed Championship

Event: Shelsley Walsh

Date: 18th July 2021

Weather: Very hot!

Midland Automobile Club welcomed us to Shelsley Walsh for the Classic Nostalgia event.

There were five Morganeers entered in this event including a surprise guest appearance from Charles Morgan in an early Moss Box Plus 8 (Class 10A) accompanied by his son Max:

165 Nigel Housley

167 Charles Morgan

168 James Dean

868 Georgina Dean

169 George Proudfoot

The new normal restrictions required us to complete a few more online forms in advance, including "signing on". Both George and Charles had attended on the Saturday so were well prepped for the day ahead. George was providing some 'top tips' for James & Georgina for their first time at Shelsley.

The event was open to spectators and hundreds (thousands?) were in attendance bringing a feeling of normality back to the sport (and the additional game of trying to avoid running anyone over).

Practice began at 9:00 in perfect conditions. George was already approaching his handicap/target time (all that practice on Saturday!) and by the second practice run temperatures had started climbing and times started to improve. Having seen Charles' times in practice George swiftly provided him with a suitable (read suitably unattainable) target time ready for the afternoon of 33.81s

Following a very hot lunch we resumed for the afternoon's timed runs. Everyone took some more time off their practice runs in T1 except for George (peaked too soon?!?) but nobody was able to get any better in a late T2 run following a long day in the hot sun.

Results on handicap:

1st. George Proudfoot

2nd. James Dean

3rd. Nigel Housley

See Results document for details.
