

MSCC Techniques Speed Championship 2025

Venue: **Hethel**

Date: **13th April 2025**

Three drivers took to the Lotus Test Track at Hethel, Norfolk, Paul Bryan, Paul Clarke and Jane Peck. Paul & Brenda Bryan were already parked in the paddock when Jane arrived having stayed overnight nearby, in perfect weather Paul and Jane walked half of the very long course. Paul Clarke arrived in the nick of time after issues with his towing vehicle and with brakes mended after his dramatic mechanical failure at Ty Croes the previous week.

Only 1 practice run was given but 4 timed runs, 2 before lunch and two following. Paul C was bedding in his new brakes on the practice and indeed on the following times runs but this didn't seem to affect his overall timings.

Despite being dry conditions on this very fast track quite a few cars were going off so on run 1 Paul B was red flagged and we had to wait for what seemed like ages while the recovery vehicles dealt with the off.

Jane's very slow times were improved by 7 seconds after messing up with going into 5th instead of 3rd Paul C continued to bed his new brakes in and increase his lead and Paul B knocked 13 seconds off his Practice run.

Despite all the offs because it was a comparatively small field we finished early and the rain held off until we were leaving the event.
